

SP Shared Purchasing

Integration, consistency and value Why we need Shared Purchasing

- 1 Industry best practice for procurement of goods and services
- 2 Simple and consistent approach to purchasing and contract management
- 3 Common standards and specifications to drive whole lifecycle efficiencies
- 4 A collaborative integration and early involvement of specialist suppliers and manufacturers
- 5 Reduce the overall number of suppliers that we use

Contracted Suppliers of Specialised goods and services

Contracted Suppliers of other goods and services

Pre-qualified Suppliers of other goods and services

New NEC4 contracts

Easy to understand, flexible, collaborative

Consistent and back to back contracts across the supply chain

Streamlined processes, improved contract administration and risk management

Shared Purchasing Directory (SPD)

All available SP suppliers, good & services and contract details and information

Reporting & Analytics

Monthly reporting of all
