

Name of wastewater treatment plant	Bombo Water Reclamation Plant
---	-------------------------------

System Summary	Projected				
	2026	2031	2036	2046	2056
Bombo catchment ADWF (ML/d)	4.2	4.2	4.2	4.2	4.2
Bombo catchment load (EP _{COB})	20,162	20,288	20,303	20,324	20,341

Treatment capacity constraints for 2022 – 2035	Estimated year of exceedance
No identified capacity constraints	N/A

Summary of servicing strategy for 2022 – 2035
Continued treatment of wastewater for ocean outfall.

Anticipated augmentation and upgrades for 2022 – 2035			
Year commissioned	Description	Approximate capital cost (\$M)	Impact on servicing capacity
N/A	None identified.		

Further investigations
None identified.
