

We're working in your area

October and November 2026

Sydney Water, in partnership with Fulton Hogan is finishing vital pipeline installation work as part of the Fairfield Wet Weather Treatment Plant upgrade.

What you need to know

Our crews will be working near the roadway at North and Symons streets in Fairfield to finish connecting the pipeline and restore the roadway. We'll also be working at Sherwin Park, Canley Vale at the same time.

The map over the page shows our work area.

Our work schedule

Our construction work is expected to take around **one week** to complete.

We plan to start work on **20 October** and finish by **25 October 2026**, weather and ground conditions permitting.

We plan to return to this area in **late-November 2026** to complete the remaining works.

A further notification will be issued before work recommences with details of the activities and

What you can expect

We know our work can be disruptive, so we'll make every effort to reduce any impact this work may have on you. You may experience:

Vibration and dust

While we excavate and expose the pipe under the ground, you may experience vibration and dust.

We'll follow all mitigation guidelines set out in our construction environmental management plan to minimise impacts where possible.

Noise

There will be some noise from workers, vehicles, machinery and equipment.

While we break into the ground and cut the pipe, noise is expected.

We'll keep noise to a minimum, avoid unnecessary loud noises, and maintain a safe work area around pedestrians, bike riders and drivers.

Work hours

Our work hours are **7am to 6pm Monday to Friday**.

If we are unable to safely reinstate the roadway, works may continue into the evening.

We will let you know if there are any changes to our working hours.

Traffic

A temporary work area will be set up near the roadway. **A boom gate will be back in use, and traffic lights will also return for managing the traffic at night.**

We'll direct everyone around us and display traffic signage to follow. Traffic will be slower than usual, and there may be a delay resulting from the reduced speed limit.

Where to get more information

If you would like to know more, please contact our Community Engagement Advisor, Shelley, at **MalabarProgram@sydneywater.com.au**, call **1800 354 108**, or sms 0428 776 864, during business hours.

If you need to make special arrangements, please reach out to us so we can work with you.

Sign up for email updates

In addition to updates like this one, we send weekly emails with details about upcoming work and construction impacts. **Send us your email address today to join the mailing list.**

Thank you for your cooperation during this essential work.
