# We are doing night works in your area

Upgrades at the Castle Hill Water Resource Recovery Facility are continuing, and there will be some upcoming night work as part of this project. Our work will continue progressively to ensure we adapt to the changing needs of the local area, and we will continue to keep you informed.

## What you need to know

We need to install some steel plates in one of our large tanks on site. For the safety of workers, we need to complete the work at night because that is when the water flow is low, making it easier to isolate and access. This work will take place from:

- **10pm Tuesday 24 September 2023 to 7am the next day (Wednesday 25 September)**, weather permitting.

All other upgrade work will continue to take place during our daytime hours of 7am to 6pm Monday to Friday and 8am to 5pm Saturdays. No work is planned for Sundays or Public Holidays.

## What can I expect?

All work will be carried out within the plant boundaries. This work is similar to what we've done previously. You may notice some noise from machinery while work is taking place, as well as some small lights used for setting up, and you may see trucks coming and going in the early morning.

We know working at night can be disruptive, so we'll make every effort to reduce any impacts this work may have on you.

## Where can I get more information?

If you would like to know more, please contact our team on 1800 560 682 or email [NorthWestTreatmentHub@sydneywater.com.au](mailto:NorthWestTreatmentHub@sydneywater.com.au).

Thank you for your cooperation during this essential work
