Walking track closure

Upgrades at the Castle Hill Water Resource Recovery Facility are continuing, and we'd like to thank the local community for your support as we continue to work towards a North West Treatment Hub.

For safety reasons and to make room for our work, we're planning to close a section of the walking track along the western boundary of the facility (closest to Wrights Road) until mid-2026.

What has changed?

We had anticipated reopening this section of track by the end of September 2024 and then periodically closing it during the project as needed.

However, we are now planning to keep this section of track closed until the upgrade of the plant is complete. We expect to reopen the track by mid-2026. Refer to the map on the back.

Why are we closing the track?

There is minimal space at the facility. The track closure will provide more space for workers and equipment during construction. Continuing to keep this part of the track closed will help us finish our work efficiently and safely.

What else should I know?

Other walking and cycling tracks around the facility remain open and are shown on the map on the other side of this notification. Signs will be in place to guide people.

Community feedback

If you have any questions or feedback about the change, you can let us know by completing a few short questions in this form linked by the QR Code below:

www.surveymonkey.com/r/R8NNY62

You can also come along to our community drop-in session to talk to the project team directly.

When? Saturday 28 September 2024 from 8am to 10am.

Where? Just inside the facility's access road gates, at the end of Wrights Road.

Where do I get more information?

If you have questions about extended hours or the upgrade, please contact our team on 1800 560 682 or email

NorthWestTreatmentHub@sydneywater.com.au.

Thank you for your cooperation during this essential work to upgrade the facility.
