

An update about work in your area

We're renewing the water main along Old Barrenjoey Road, Avalon Beach.

This is not just about pipes. It's about water – clean, life sustaining water. Our work will ensure we can continue to give you clean and reliable water every day.

What do I need to know?

As mentioned in our previous letters, our work is split into two stages - **Section 1** (between Dunbar Park and The Crescent) and **Section 2** (between Dunbar Park and the Fire Station). Please scan the QR code for more details on the work staging.

Work began in March and is progressing well in **Section 1**. We're now preparing to start work in **Section 2**, with activity continuing in **Section 1** at the same time.

Timing of our work

Our work for **Section 2** is planned to start on **Thursday 5 June** and is expected to take about 12 to 16 weeks to complete, weather and ground conditions permitting.

We expect to finish construction by the end of October 2025, weather and ground conditions permitting.

Day work hours

Our work in **Section 2** needs to be done during the day.

Our standard day work hours are **7 am to 6 pm, weekdays** and **8 am to 1 pm, Saturdays** (occasionally, if needed). **We won't work on Sundays, or on Public Holidays.**

Night work hours

Our night work in **Section 1** is ongoing and will continue alongside the day work starting in **Section 2**.

Some night work will also be required in **Section 2** at times.

Our night work hours are **8 pm to 5 am, Monday nights to Friday mornings (four nights a week)**. **We won't work Friday, Saturday, or Sunday nights.**

What can I expect?

We understand our work can be disruptive. We will make every effort to reduce our impact as much as possible. You may experience:

Noise

There will be some noise from our equipment and machinery during the work. We will minimise vehicle movements and avoid unnecessary loud noises where possible.

Impact to your services

Your water services **may** be temporarily interrupted on up to five nights during off-peak hours. If you are affected by these shutdowns, you will receive a separate letter with more information.

Traffic and parking changes

Our work area will be very space-constrained in **Section 2**.

- this section of Old Barrenjoey Road will be one-way (southbound only), with traffic directed around our work area via the carpark next to Woolworths
- on-street parking on this section of Old Barrenjoey Road will be restricted for the duration of the tunnelling work
- all parking in the Council carpark next to Woolworths will remain free for use.

We won't be able to pack up our work areas at the end of each shift. This means that these traffic changes will be in place **24/7 for the 12 to 16 weeks** while we work in this area.

Temporary traffic changes - Section 2

Where do I get more information?

Keep up to date with weekly emails

Join our email list to get weekly updates about our construction activities in the months to come. Scan the QR code, call or email our team to join.

You'll only receive emails about this project, and we won't share your details without your permission.

Come and talk with us

We'll have **monthly drop-in sessions** in Dunbar Park. Our team will be there to discuss our work and answer any questions you have.

When: First Wednesday of every month, between 1 pm and 3 pm.

Next session: Wednesday 4 June, 1 pm to 3 pm.
