

We're working in your area

25 February 2025

We're upgrading the Prospect Pre-Treatment Plant in Prospect.

This is not just about pipes. It's about water – clean, life sustaining water. This work will help ensure we can continue to give you reliable water services every day.

Sydney Water, in partnership with Suez and Acciona, will soon commence construction activities for the first stage of the Prospect Pre-Treatment Plant Augmentation and Upgrade Project. This essential infrastructure project will enhance Sydney's drinking water resilience by improving the capacity to treat up to 500 million litres of water per day.

Work will not impact private property, or your water supply.

Timing

Work on site will start from 26 March 2025 and will be complete in 2027, weather permitting.

Work hours are 7 am to 6 pm, Monday to Friday and Saturday 8 am to 1 pm.

Contact us

Thank you for your cooperation during this work. To speak with us contact our community liaison at info@pptp.com.au or call 0499 223 442.

What to expect

The initial phase of work involves site preparation such as clearing, grubbing, earthworks, and the establishment of a temporary site office. All work is on existing water treatment sites around Prospect Reservoir.

When complete, the Pre-Treatment Plant will enable supply of safe, secure, reliable drinking water during extreme weather events.

Aerial view of the new Pre-Treatment Plant.

Noise

This work will create some noise from equipment and vehicle movements.

Vehicles

Work will involve additional vehicles entering and exiting the site from Ferrers Road. Some improvements will be made to the site driveway on Ferrers Road to ensure safety of all road users.
