

29 July 2025

Removal of equipment from Carlisle Street | Temporary parking removal | Dover Road and Carlisle Street, Rose Bay | August 2025

Below the cliffs of Vaucluse and Diamond Bay, wastewater flows directly into the ocean untreated. It's time for change and we're continuing to work to ensure this iconic area of Sydney gets the clean, blue backyard it deserves. Under the Refresh Vaucluse Diamond Bay (RVDB) project, we are building new infrastructure to divert the flows from the last three remaining ocean outfalls in Sydney to the Bondi Water Resource Recovery Facility (WRRF).

The project has reached a significant milestone with successfully installing a new 1.8km underground wastewater pipeline from the Parsley Bay car park to Carlisle Street, Rose Bay.

On **Tuesday 5 August**, we will be removing the underground drilling equipment from our construction site at Carlisle Street.

What's happening

Removal of equipment

There will be oversized heavy vehicle movements to Carlisle Street during this period. Traffic management will be in place on Carlisle Street, Dover Road and surrounding streets to safely guide residents and road users.

Temporary removal of parking on Parsley Road

While Carlisle Street and Dover Road will remain open to traffic during this time, some parking on the western side of Dover Road, outside number 35 and 33 (approximately 4 spaces) and both sides of Carlisle Street (approximately 6 spaces) **will be temporarily removed for 1 day**, weather permitting. This will provide safe access for delivery vehicles and to maintain traffic flow during the loading process.

The "no parking" zones will be clearly marked with traffic barriers and signs, indicating the dates when restrictions apply. We'll reopen these parking spaces once the work is complete.

A map is provided overleaf which shows the area where parking will be removed.

We understand the ongoing construction can be challenging for residents and we sincerely appreciate your patience during this time.

Equipment

The equipment and machinery being removed may include:

- excavators
- welding machines.

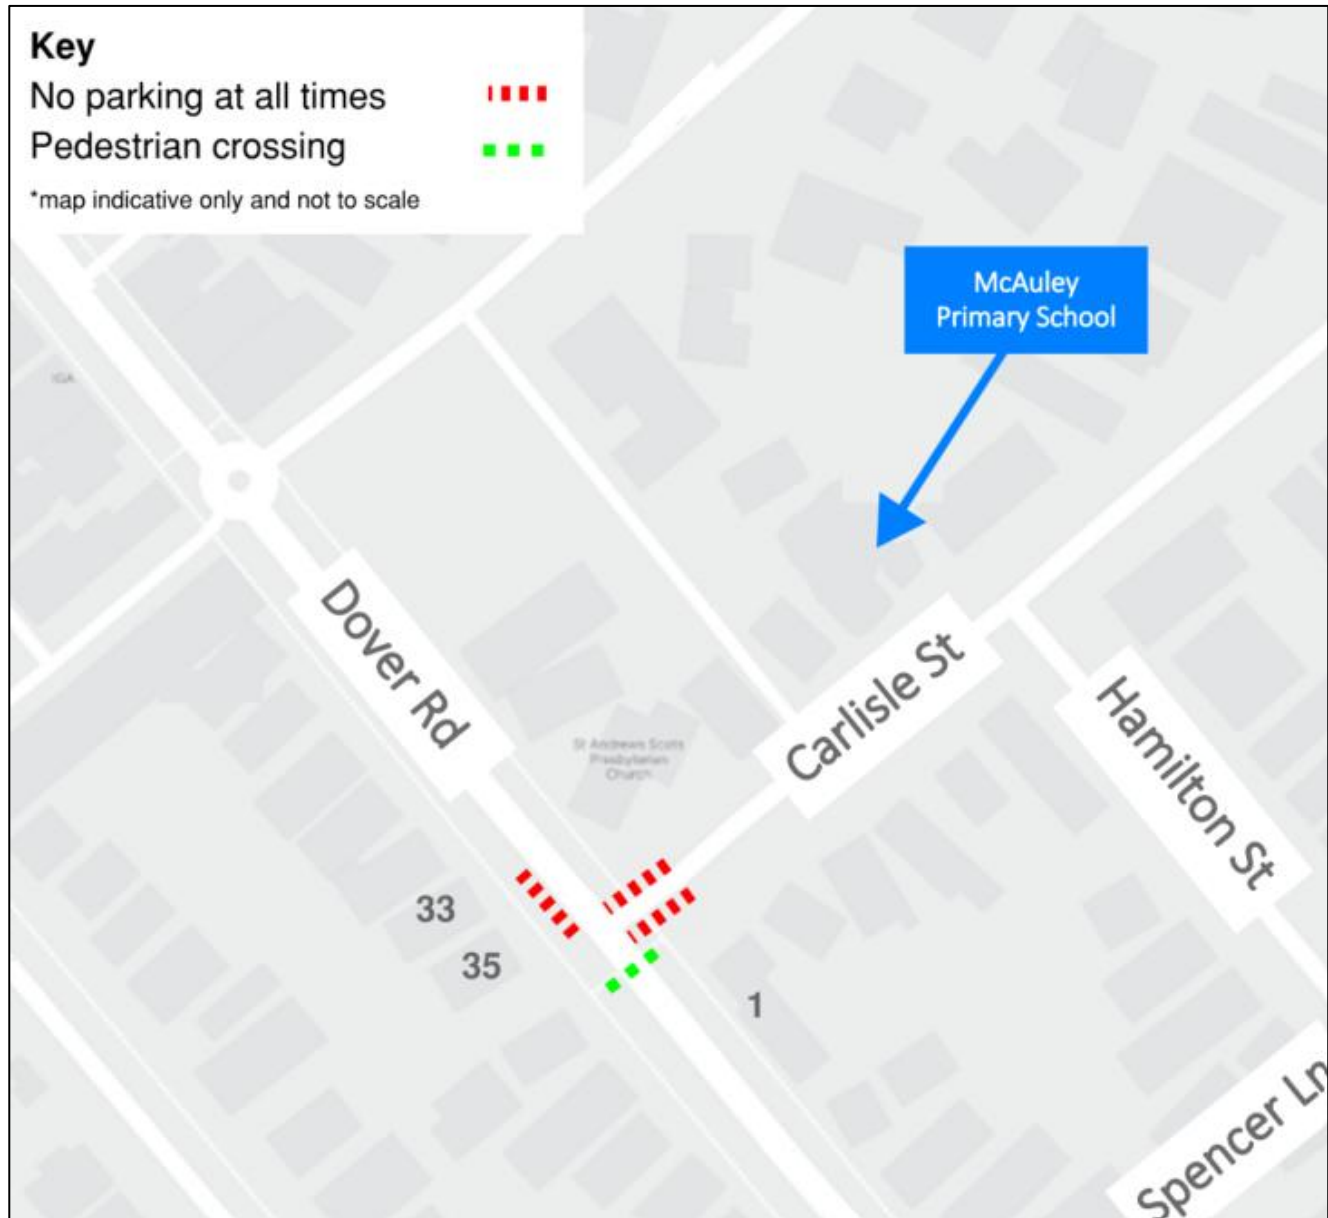

To minimise impacts we will

- where we can for safety, schedule deliveries outside of peak traffic hours
- ensure all heavy vehicles use the approved direct route to and from Carlisle Street
- turn off machinery when not in use
- traffic control and management on Dover Road, Carlisle Street and surrounding streets.

Our work hours

Our work hours are **Monday to Friday from 7 am to 6 pm** and on **Saturdays from 8 am to 1 pm**. If we need to work outside these hours, we will notify residents in advance.

Temporary removal of parking

Contact

We will provide regular updates to the community as the work progresses. If you have any questions, please contact our community engagement team on **1800 641 349** or email us on vaoclusediamondbay@sydneywater.com.au.
