

22 August 2024

Richmond System Wastewater Upgrade Laydown Area - Inalls Lane, Richmond

Dear resident,

Sydney Water is building wastewater infrastructure in Richmond and North Richmond to service Western Sydney's growing population. Our work will ensure we can continue to give you a reliable wastewater service every day.

To complete this work as quickly as possible, our contractor BMD Constructions will be establishing a laydown area at 10 Inalls Lane, Richmond from 29 August 2024 for approximately 12 months as we complete our work in this area.

What you need to know

The laydown area will be used for storing & accessing materials and equipment needed for the completion of construction activities. Temporary fencing will be used to secure the area where our construction material and equipment will be stored. There will be truck movements to and from the compound during the day as we undertake our work.

Minimising noise and dust

We know our work can be disruptive, and we'll make every effort to reduce any impact this work may have on you. During this time, you may experience some noise and dust from our activities. We will continue to monitor noise and dust levels and work directly with affected residents to mitigate noise wherever feasible.

To mitigate the potential for noise and dust, where required we will implement:

- Provide noise barriers and acoustic sheds to house tunnelling activity.
- Undertake noisy work during core work hours, where possible.
- Ensure all equipment is shut down when not in use and non-tonal reversing beepers used on vehicles.
- The use of noise blankets.
- Dust suppression methods ie: watering down the site to minimise dust from becoming airborne.
- Covering materials: Materials that are prone to generating dust are covered when not in use.
- Proper waste management

Our work hours

Our work hours are between 7am and 6pm Monday to Friday and 8 am to 1 pm on Saturdays. There will be no work on Sundays. From time to time we may need to work outside of these hours, you will be notified prior, if we need to.

Where do I get more information and help?

If you have any questions or would like to know more, please contact our project's Community Engagement team on 1800 010 086 or by email richmondswu@sydneywater.com.au.

Kind regards,

Greg Cable
