**29 June 2026**

## Richmond System Wastewater Upgrade project

## Night work on Francis Street and Pitt Street, Richmond

As part of our construction activities for the Richmond System Wastewater Upgrade, traffic on and around Francis Street and Pitt Street, Richmond will be impacted.

### What's happening

We will be completing asphalting work as part of permanent road restoration following our previous pipeline construction activities (see map overleaf for details).

The work will begin near Pugh's Lagoon and progress along Francis Street toward Pitt Street with temporary road closures implemented in stages. Resident access will be maintained.

### When we'll be working

To minimise daytime traffic congestion, work will be carried out for **up to 7 night shifts between Monday 29 June and Thursday 16 July** from **6:30pm until 5:00am**, weather permitting.

There will be no work on Friday or Saturday nights.

### Equipment we will be using

Equipment used will include lighting towers, profiling machines, asphalt pavers, rollers, spray and mix trucks, hand tools, along with support vehicles such as utes and a bobcat.

### Private property access

We will make sure that residents continue to have access to driveways and private properties during construction.

### Traffic management

During our work temporary detours and lane closures will be in place. Authorised Traffic Controllers will assist with traffic flow whilst keeping you and our team safe. Please be mindful when walking, cycling or driving near our construction activities and always follow instructions from our traffic management team.

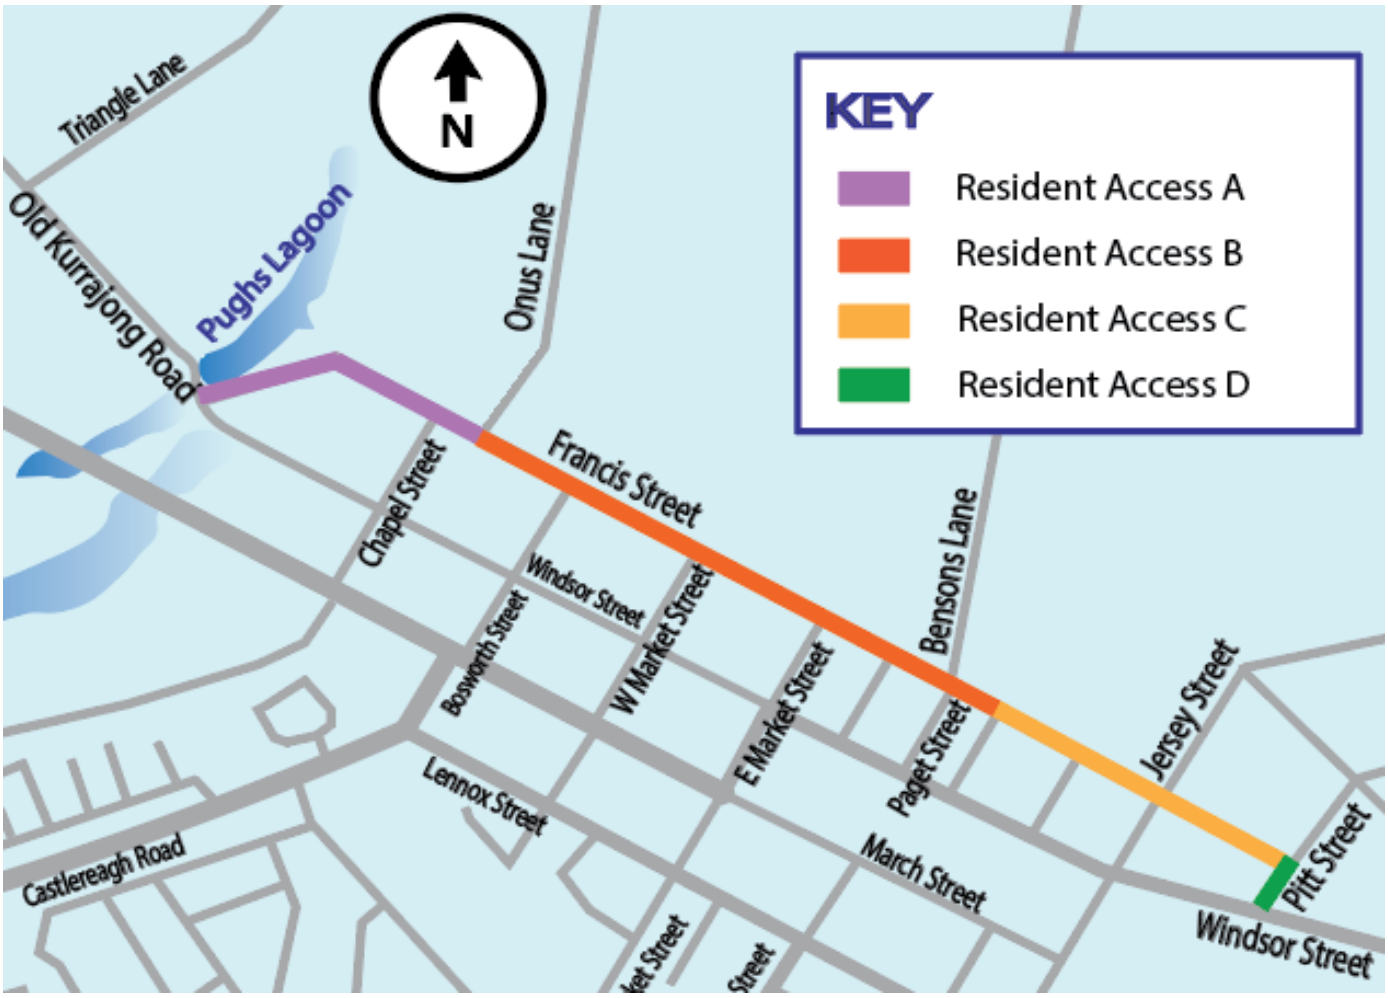

Refer to the electronic signs surrounding the work area for updates to traffic conditions and detours.

All on street parking will be temporarily disrupted during these work hours.
