

4 June 2026

Dear Resident,

RE: Ryde to Pymble Pipeline Upgrade - Out of Hours Float Delivery

Sydney Water is reinstating the Ryde to Pymble pipeline to support the growing population in Sydney's North Shore. Before work starts, we need to transport an oversized excavator to site.

An oversized excavator will be transported to 238 Vimiera Rd, Marsfield on Wednesday 10 June 2026. Road restrictions will take place between 6:00pm and 7:00am.

What this involves

- The excavator will arrive on a low-loader truck and be carefully unloaded on-site.
- Traffic controllers will be present to guide vehicles and pedestrians.
- The delivery team will follow all safety and compliance requirements

Expected impacts

- Short-term noise associated with vehicle movement and positioning.
- Footpath access may be briefly redirected for safety.

We aim to keep disruption to a minimum and appreciate your understanding as we complete this essential stage of the project.

What you need to know

You may notice noise associated with heavy truck arrival. The excavator will be unloaded between 7am and 6pm on Thursday.

We understand that construction work can be disruptive, we will do our best to minimise any impact on you and will keep the local community updated as our work progresses.
