Ryde to Pymble pipeline upgrade – We’re doing investigation work in your area

To support Sydney’s growing communities, Sydney Water is reinstating the Ryde to Pymble (RP03) water pipeline to strengthen network resilience and support population growth across Sydney’s northern suburb.

What we’re doing

Before construction starts, we need to carry out some investigation work. This helps us identify underground services and understand ground conditions so we can plan the work safely and efficiently.

The investigation work will take place at the intersection of **Kissing Point Road** and **The Comenarra Parkway**, between **Canoon Road** and **Wattle Place**. We need to carry out this work at night to reduce impacts on traffic at this busy intersection.

Our night work hours will be from **8:00pm to 5:00am** on **Thursday 23 July, 2026, Friday, 24 July 2026, Monday, 27 July 2026 and Tuesday, 28 July 2026**.

What you need to know

We understand that our work can be disruptive, and we’ll do our best to minimise impacts on the community.

You may experience noise from vehicles and machinery on site while we undertake these works. During this time, we will implement a **single lane closure** for construction vehicles and equipment.

Traffic controllers will be on site to help keep vehicles, cyclists and pedestrians moving safely through the area. Please allow a little extra travel time and follow their directions.

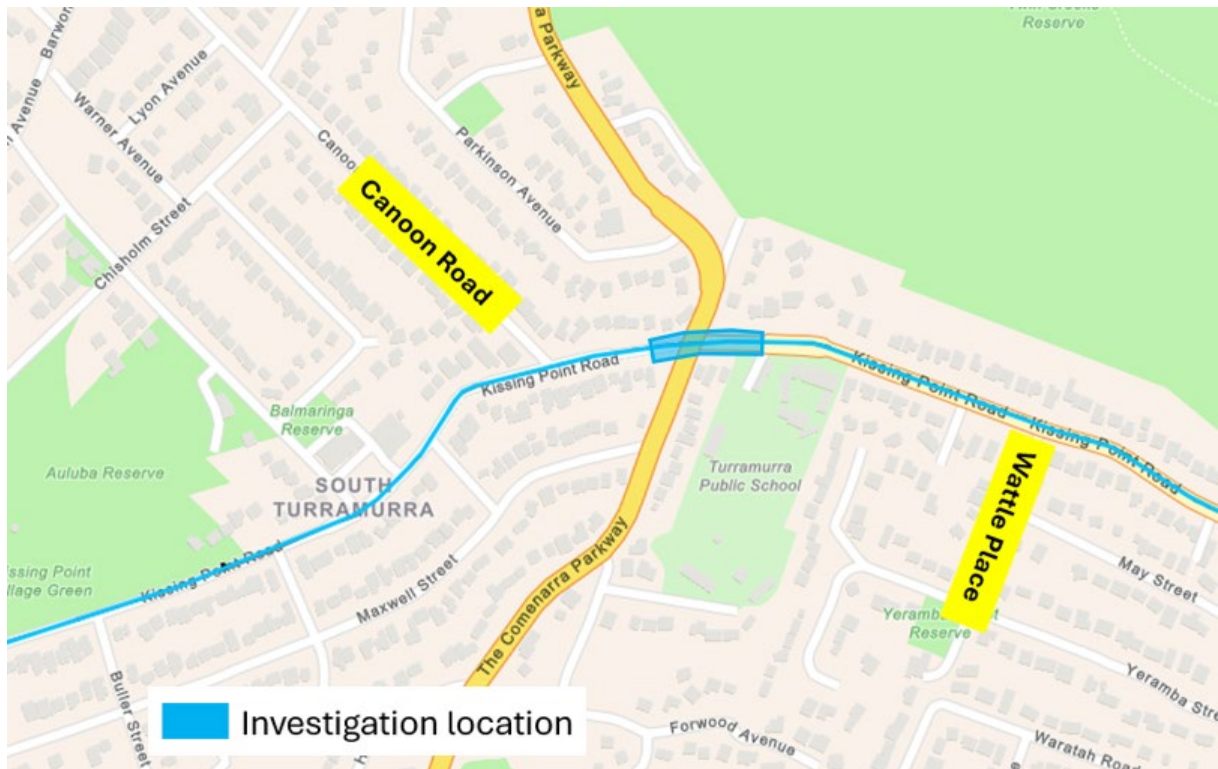

Some on-street parking spaces may be temporarily unavailable while work is underway. We appreciate your understanding as these measures help keep everyone safe.

In some cases, access to homes or properties may be temporarily affected. If we need to work near your driveway or property, we’ll let you know in advance.

Equipment we’ll use

May include but is not limited to excavators, saw cutters and vacuum trucks.
