Ryde to Pymble pipeline upgrade – We're doing investigation work in your area

Sydney Water and our delivery partner, McConnell Dowell–Gamuda Joint Venture, are bringing the Ryde to Pymble drinking water pipeline back into service and upgrading the connection to Wahroonga Reservoir. This essential work will help provide a more reliable water supply and support the growing needs of Sydney's North Shore.

What we're doing

Before construction and trenching begins, we need to undertake investigation work to locate underground services and inspect the ground conditions so we can work efficiently and avoid delays.

This work will be located along **North Road** between **Rickard Street and Beattie Avenue,** our work hours will be from **7am** to **6pm** on **Thursday 19 November 2026 and Friday 20 November 2026.**

What you need to know

We understand that our work can be disruptive, and we'll make every effort to minimise impacts on you.

You may experience noise from vehicles and machinery on site while we undertake these works. During this time, we will implement a **temporary road closure**.

Traffic controllers will be on site to help maintain traffic flow and ensure the safety of pedestrians, cyclists, and motorists. Please follow the directions of traffic controllers and allow a little extra travel time, especially during peak periods.

Some on-street parking spaces may be temporarily unavailable while work is underway. We appreciate your understanding as these measures help keep everyone safe.

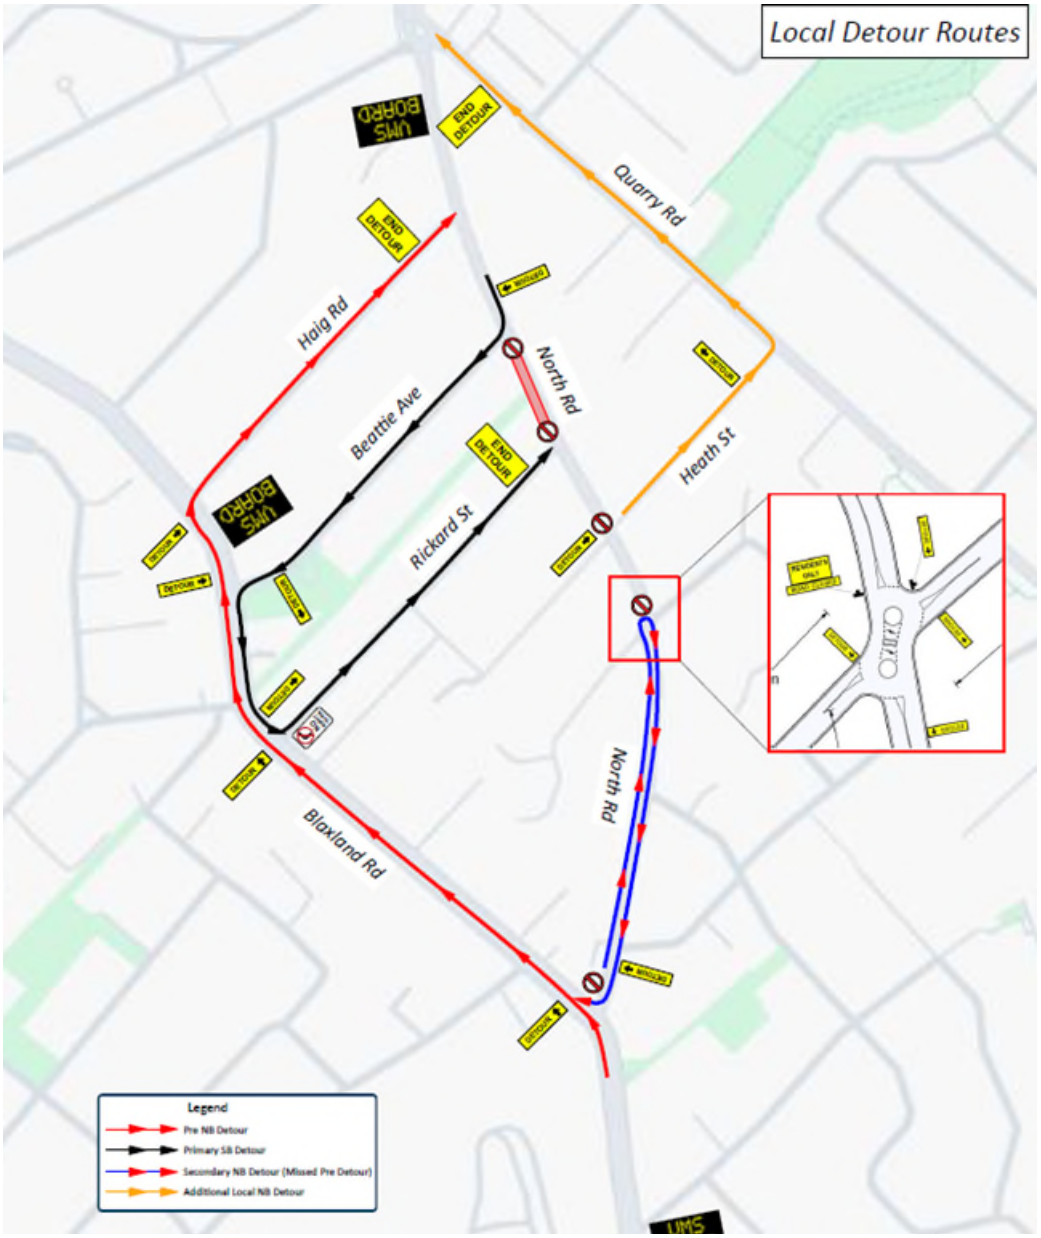

Access to and from homes and buildings may be temporarily restricted. If we need to work in front of or near your driveway, we will notify you in advance.

Equipment and machinery used

May include but is not limited to excavators, saw cutters and vacuum trucks.
