Ryde to Pymble pipeline upgrade – Compound establishment – Kissing Point Road (Verge) - Turramurra

To support Sydney's growing communities, Sydney Water is reinstating the Ryde to Pymble (RP03) water pipeline to strengthen network resilience and support population growth across Sydney's northern suburb.

We've worked closely with Council to plan temporary construction compounds at the road verge near **245 Kissing Point Road** and receival site at **346 Kissing Point Road**, with measures to minimise traffic, environmental and community impacts. This positive collaboration has helped develop arrangements that support delivery of the pipeline upgrade while considering the needs of local residents, Council's community and Sydney Water customers.

Our delivery partner, McConnell Dowell–Gamuda Joint Venture (MDGJV), will establish the compound near **245 Kissing Point Road** from **Monday 16 November 2026 to late December 2027**, weather permitting. The site will be restored once the compound is no longer required.

Nearby residents and businesses will be separately notified about the timing and potential impacts of the compound at 346 Kissing Point Road.

What you need to know

We'll use the compound as a temporary base for our construction team, with space for equipment, materials, site offices, worker facilities and parking. The compound will be secured with fencing to protect stored materials and equipment. During construction, you may notice more trucks travelling to and from the site throughout the day as work is carried out.

Minimising noise, dust and traffic impacts

We understand construction can be disruptive and will work to minimise impacts on the community. You may notice increased noise and dust, as well as temporary changes to traffic and access.

We'll monitor impacts and, where required:

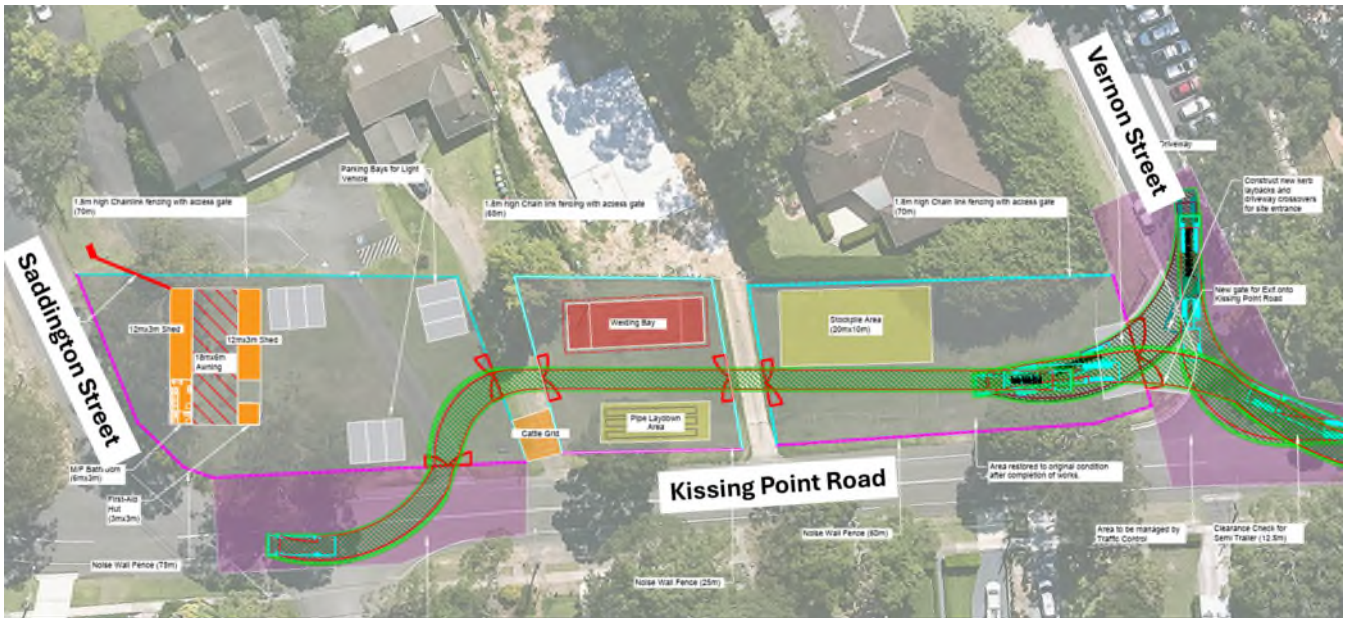

- use noise barriers and other noise-reduction measures
- manage dust by watering work areas and covering stockpiles
- switch off equipment when not in use and undertake noisy work during standard construction hours where possible
- use traffic controls to safely manage vehicles, pedestrians and cyclists

- maintain property and pedestrian access where possible and notify affected residents of any temporary changes.

Our work hours

Our work hours are between **7am and 6pm Monday to Friday** and **8 am to 1pm on Saturdays. There will be no work on Sundays or public holidays**. Occasionally, we may need to work outside these hours. If this happens, we'll contact any affected residents in advance.

Map of compound area – Kissing Point Road – Verge, Turramurra

Note – The compound layout is indicative only and may be subject to change.

Where do I get more information?

We're committed to keeping you informed by sending out a weekly email update which will include upcoming work and project updates. If you would like to be added to our email distribution list, please scan the QR code which will direct you to our website where you can subscribe.
