Ryde to Pymble pipeline upgrade – Compound establishment – Abuklea Road, Marsfield

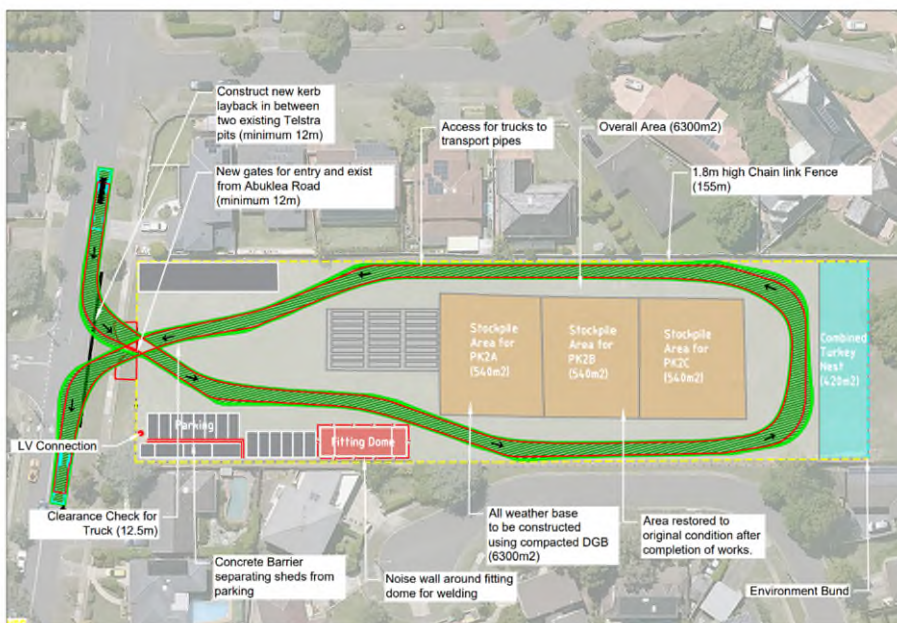

To support Sydney’s growing communities, Sydney Water is reinstating the Ryde to Pymble (RP03) water pipeline to strengthen network resilience and support population growth across Sydney’s northern suburb.

Our delivery partners McConnell Dowell–Gamuda Joint Venture (MDGJV) will set up a compound site on Abuklea Road, Marsfield starting Friday, **24 April 2026**, with work continuing through to **late December 2027**, weather permitting.

What you need to know

This compound site will be used to store equipment and materials required for the construction of RP03 and will also accommodate site offices, amenities, parking and other facilities needed to support nearby work. The compound area will be secured with fencing to protect stored construction materials and equipment. During construction, you may notice an increase in truck movements to and from the site throughout the day as we carry out our activities.

Minimising noise and dust

We know our work can be disruptive, and we'll make every effort to reduce any impact this work may have on you. During this time, you may experience some noise and dust from our activities. We will continue to monitor noise and dust levels and work directly with affected residents to mitigate noise wherever feasible. To minimise noise and dust during our work, we'll put the following measures in place when needed:

- Provide noise barriers and acoustic sheds
- Undertake noisy work during core work hours, where possible
- Ensure all equipment is shut down when not in use and non-tonal reversing beepers used on vehicles
- The use of noise blankets
- Dust suppression methods i.e watering down the site to minimise dust from becoming airborne
- Materials that are prone to generating dust are covered when not in use
- Develop a waste management plan

Where do I get more information?

We're committed to keeping you informed by sending out a weekly email update which will include upcoming work and project updates. If you would like to be added to our email distribution list, please scan the QR code which will direct you to our website where you can subscribe.
