

We're working in your area

Building new wastewater networks in north-west Sydney enables new communities to grow.

We're installing a new wastewater pipe along Smalls Creek in Kellyville to increase capacity of our system and keep pace with growth in the area.

What do I need to know?

We need to do some investigations before construction starts to confirm the ground conditions and the location of our pipes and other services underground. This will help us plan for the work and save time when we begin construction.

Once we've finished our investigations, we will return later to start construction of the new wastewater main. We'll write to you again to let you know before we start.

Timing

Our investigations will be carried out between **Monday 5 February 2024** and **Friday 23 February 2024**, weather permitting.

Our day work hours are **7 am to 6 pm, Monday to Friday** and **8 am to 1 pm, Saturdays** (if needed). We won't work on Sundays or public holidays.

What can I expect?

We understand our work can be disruptive at times, but we will make every effort to reduce our impact as much as possible. You may experience:

Noise

There will be some noise from our equipment and machinery including a vacuum truck and excavator. We will keep noise to a minimum and avoid unnecessary loud noises where possible.

Vegetation removal

We always aim to minimise impact to vegetation where we can, but sometimes that's not possible. As part of these investigations, we need to remove some low-lying vegetation along Smalls Creek to allow safe access for our equipment and vehicles. The map over the page shows the investigation area where some vegetation needs to be removed.

Truck movements and traffic changes

You may notice an increase in truck movements during the investigations. Our trucks and equipment will access the investigation area using the access track off Marella Avenue.

We'll have traffic control and signage to assist our vehicles in and out safely.

Your services

Your drinking water and wastewater services will **not** be impacted by this work. You can continue to use your services as normal.

Temporary storage area

We need to establish two temporary storage areas for our equipment, vehicles, materials, and amenities for our crew. We'll need to borrow some parking spaces on Marella Avenue for one of our storage areas. The map below shows where the temporary storage areas will be set up.

Where do I get more information?

If you would like to know more, please contact us on **1800 943 119** or email confluence@sydneywater.com.au.

Thank you for your cooperation during this important work.
