Upcoming work in your area

2 April 2026

We are starting construction of new wastewater infrastructure as part of the Upper South Creek Networks Program, providing world-class wastewater services to Western Sydney's growing communities.

Our work is starting soon in the Austral Leppington precinct, to deliver about 3 km of new wastewater pipelines.

What you need to know

We have engaged Abergeldie to start construction of the new Austral Leppington wastewater pipeline from Thirteenth Avenue to Bringelly Road in Austral.

Starting in early April, the initial six months of work will include:

- site establishment to set up site offices, facilities, laydown and work areas
- clearing of vegetation and installing fencing around work areas
- building the temporary access tracks to maintenance hole locations
- excavating, compacting and levelling of ground surfaces
- deep excavation works to construct the maintenance holes and enable the underground drilling activities
- using underground drilling machines to install the wastewater pipes
- surveying activities, including using a drone camera above our work areas
- delivery and removal of materials and equipment to and from site, which may include out-of-hours deliveries of oversized plant and equipment.

The map on page 3 shows our work areas.

Our work schedule

Abergeldie will start work on the Austral Leppington wastewater pipeline in **early April 2026** and is expected to finish by **mid-2027**, weather and ground conditions permitting.

Standard work hours

Our standard work hours are **7 am to 6 pm**, **Monday to Friday,** and **8 am to 1 pm** on **Saturdays.**

We won't work on Sundays or public holidays.

If we need to work outside these hours, we will notify you in advance.

Out-of-hours work

Some work will need to take place outside standard construction hours to minimise traffic impacts or ensure the safety of pedestrians, motorists, and our workers.

We may have out-of-hours deliveries of oversized plant and equipment between **8pm and 5am, Monday to Saturday.**

Out-of-hours work will be carried out in line with the project environmental protection licence, road occupancy licences, and Transport for NSW requirements.

Impact to services

Your water and wastewater services will not be impacted while we do this work.

What you can expect

We know our work can be disruptive, so we will make every effort to reduce any impact this work may have on you. You may experience:

Noise

At times, there may be some noise from the digging and heavy machinery. We will keep noise to a minimum, avoid unnecessary loud noises and follow all mitigation measures in the construction environmental management plan.

Truck movements

There will be frequent vehicle movements in and out of our work areas. Truck movements will vary each day depending on the work activity.

When needed, our traffic controllers will help keep traffic flowing safely and minimise disruption to local traffic. We will make sure our workers understand the importance of driving safely and within speed limits.

Dust and mud

Some of our work will create dust, which can get worse in windy weather. We will manage dust by wetting down our work areas, access tracks and stockpiled material. We will inspect our work areas often to make sure they are tidy and organise a street sweeper to make sure mud is not tracked off site onto local roads.

Restoration

We will take photos of our work areas before we start so that it is restored as close as possible to the original condition.

We are working closely with impacted landowners to ensure impacts to private property are managed effectively and impacted areas are restored once our work is complete.

We speak your language

If you need a free interpreter, please call 13 14 50

Arabic | Italian | Chinese (Traditional) | Chinese (Simplified) | Spanish | Croatian

إذا كنت بحاجة إلى مترجم، اتصل برقم الهاتف المذكور أعلاه

Se hai bisogno di un interprete, chiama il numero sopra

如果您需要口譯員，請撥打上面列出的電話號碼如果您需要

口译员,请拨打上面列出的电话号码

Si necesita un intérprete, llame al número que figura arriba

Ako trebate prevoditelja, nazovite gornji broj

Where to get more information

If you would like to know more, please contact our Community Engagement team at **uscnetworks@sydneywater.com.au** or call **1800 010 083**.
