We're working in your area

12 October 2026

Sydney Water is working to deliver key wastewater, drinking water, and recycled water infrastructure, to enable development and meet future demand in Western Sydney's growing communities. Our work in the Mamre Road precinct includes the delivery of two new pumping stations, 4.5 km of drinking water pipes, 4.5 km of wastewater pipes and 300 m of recycled water pipes.

To meet drinking water requirements for the Mamre Road Precinct, we are continuing our investigations into the extension of the drinking water pipeline on the west side of Mamre Road from Kerrs Road to Elizabeth Drive.

We will continue survey and visual investigations on private properties in Kemps Creek along Mamre Road between Kerrs Road and Elizabeth Drive.

There will be changed traffic conditions while we do this work.

What you need to know

Work along Mamre Road and will include:

- scanning and surveying for underground services
- topographical surveying
- geotechnical investigations
- slit trenching to safely access and identify existing underground cables and pipes.

This work will use both non-destructive and destructive digging methodologies, with the support of high-pressure water and vacuum trucks. We will also temporarily require the use of light vehicles, vacuum trucks and lighting towers.

Our work schedule

Our investigations on the roads shown over the page will take place between **Monday 19 October and Monday 2 November 2026**, weather and ground conditions permitting.

Work hours

Our work hours are **7am to 6pm Monday to Friday** and **8am to 1pm** on **Saturdays**.

Our traffic control will set up the lane closures between **9:30am** and **3.30pm**.

For the safety of our workers and motorists, some work may take place outside of peak travels times at nighttime, **between 7pm and 5am**. We will aim to minimise out of hours work as much as possible.

We won't work on Sundays or public holidays. If we need to work outside these hours, we'll notify you in advance.

Traffic changes

Our work areas, machinery and trucks will take up space on the road. Our traffic controllers will implement reduced speed limits, lane closures and stop/go (contra flow) to help traffic flow while keeping you safe.

There may be short delays on Mamre Road while we do this work in Kemps Creek. Other contractors are also working in the area. Please continue to travel with care.

We thank you for your patience and understanding.

Work areas and changed traffic conditions in place on Mamre Road (northbound) between the intersections of Kerrs Road and Elizabeth Drive

Work areas and changed traffic conditions in place on Mamre Road (northbound and southbound) between the intersections of Mount Vernon Road and Elizabeth Drive

Where to get more information
