

ACOUSTICS ADVISOR ENDORSEMENT SYDNEY WATER UPPER SOUTH CREEK PROJECT

Project:	SSI 8609189	Stage:	Concept and Stage 1
Review of	Construction Noise and Vibration Impact Statement	Reviewed document reference:	Upper South Creek Advanced Water Recycling Centre
Prepared by:	Larry Clark, Acoustics Advisor		Construction Noise and Vibration Impact Statement - AWRC
Date of issue:	23 August 2023		TM588-12F01 CNVIS AWRC (r3) Dated: 21 August 2023

As approved alternate Acoustics Advisor (AA) for the Sydney Water Upper South Creek Project my colleague David Hanson reviewed and provided comments on previous versions of Revision 3 of the Construction Noise and Vibration Impact Statement (CNVIS) for Sydney Water's Advanced Water Recycling Centre (AWRC).

Revision 3 is an update of previous revisions of these documents, responding to comments.

I am satisfied that David's comments have been adequately addressed, and I endorse Revision 3 of the CNVIS - AWRC, as required by Condition of Approval A34 (e).

Larry Clark, Acoustics Advisor
