

7 September 2023

Dear Resident

Temporary Site Compound – Fairfield Water Resource Recovery Facility

Sydney Water is building the Upper South Creek Advanced Water Recycling Centre (AWRC) in Kemps Creek and associated pipelines to support population and economic growth in Western Sydney. The associated pipelines extend east from Kemps Creek to Lansdowne and west from Kemps Creek to Wallacia.

Our delivery partner, John Holland, will establish a temporary site compound within Sydney Water's **Fairfield Water Resource Recovery Facility** on East Parade. The temporary compound will support construction of the pipeline infrastructure through Cabramatta and Canley Vale. We will begin work to establish this temporary site from **Thursday 14 September 2023**.

Refer to the map overleaf for the location of the temporary compound. This compound location was assessed in the project's Environmental Impact Statement (EIS).

We expect to use this compound until December 2024.

The work will involve:

- investigations to identify any services in the area
- building a temporary access road off East Parade, which will include some disruption to the pedestrian footpath
- installing construction fencing and a gate to secure the compound
- minor earthworks to level and stabilise the area
- vegetation trimming and removal, if required
- building a temporary car park for light vehicles
- installing site offices and worker amenities
- installing erosion and sediment controls
- light and heavy vehicles accessing the site
- deliveries of materials and equipment
- storage of equipment, materials and spoil stockpiles
- activities such as pipe welding
- welding pipes in preparation for installation.

Our standard work hours are **7 am to 6 pm Monday to Friday** and **8 am to 1 pm Saturday**. If we need to work outside standard work hours, or if activities to support pipeline installation will be taking place outside the compound, we will notify you separately.

You may notice additional traffic in the area, including truck movements on East Parade. We expect that there will be a maximum of ten truck movements an hour to access the compound and traffic control measures may be implemented at times. Access to the temporary site compound will be via Symons Street and East Parade.

Sydney Water Corporation ABN 49 776 225 038

We will minimise impacts as much as possible by:

- scheduling deliveries during standard hours as much as possible, and notifying the community before deliveries occur outside standard hours that may generate noticeable noise
- maintaining good housekeeping and using shade cloth to reduce visual impacts to nearby residents
- parking vehicles within the compound and not in surrounding streets
- securing the site for the safety of the community and animals
- using water to minimise dust and mud tracking.

For further information, to provide feedback, or to make a complaint, please contact John Holland's Community Team on 1800 064 127 or uppersouthcreek@sydneywater.com.au. For more information about the Upper South Creek Advanced Water Recycling Centre project, visit sydneywatertalk.com.au/uppersouthcreek.

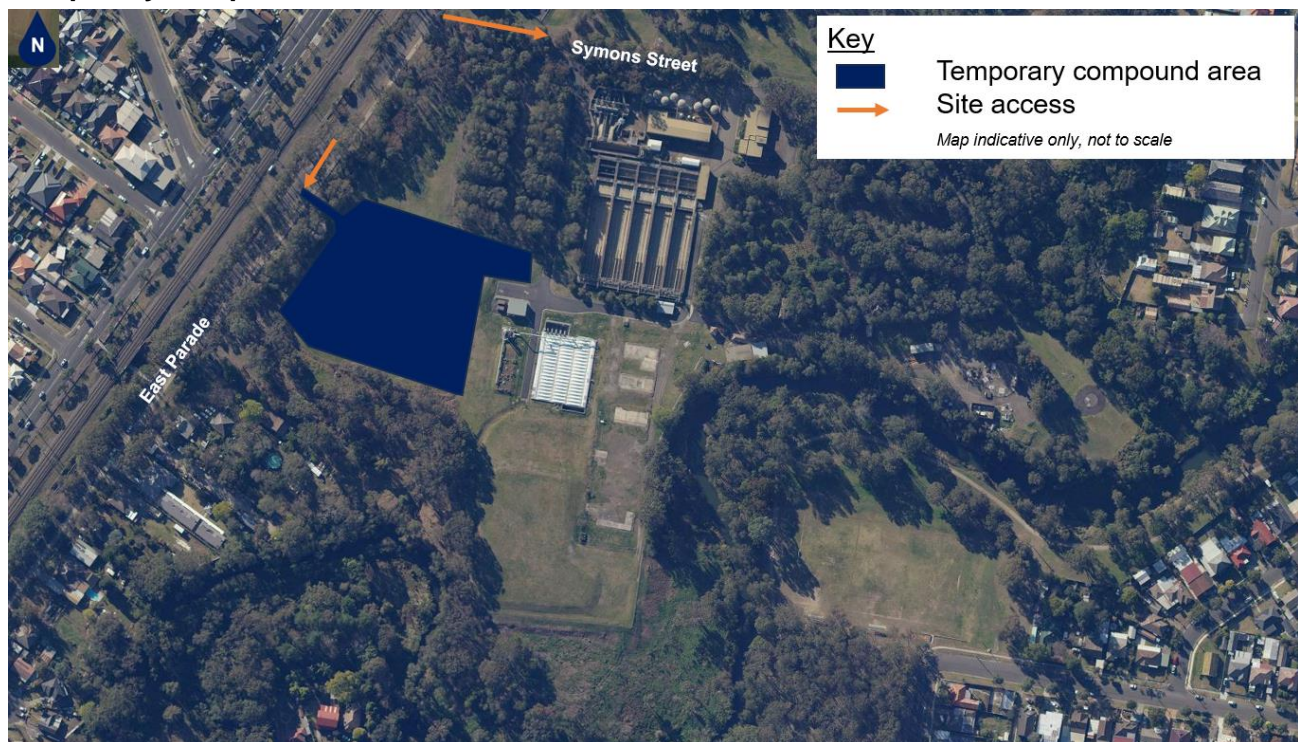

Thanks for your understanding during this essential work.

Yours sincerely

Darren Wharton
