

12 September 2023

Dear Resident

Temporary Site Compound – 260 Park Road, Wallacia

Sydney Water is building the Upper South Creek Advanced Water Recycling Centre (AWRC) in Kemps Creek and associated pipelines to support population and economic growth in Western Sydney. The associated pipelines extend east from Kemps Creek to Lansdowne and west from Kemps Creek to Wallacia.

Our delivery partner, John Holland, will establish a temporary site compound on private land at 260 Park Road, Wallacia, to support construction of the pipeline infrastructure through Wallacia and Luddenham. We plan to begin work to establish this temporary site from around **Tuesday 19 September 2023**. Construction of the pipeline is expected to start in this area from October 2023.

Refer to the map overleaf for the location of the temporary compound. This compound location was assessed in the project's Environmental Impact Statement (EIS). We expect to use this compound until October 2024.

The upcoming work will involve:

- service investigations
- building a temporary access road
- installing construction fencing and a gate to secure the compound
- minor earthwork to level and stabilise the area
- vegetation trimming and removal within the compound and along the construction corridor
- installing site offices and worker amenities
- light and heavy vehicles accessing the compound site
- deliveries of materials and equipment
- excavation and installation of the pipeline, this will include excavation across driveways
- using traffic control along Park Road to create a safe work zone
- storage of equipment, materials and spoil stockpiles.

Our standard construction hours are **7 am to 6 pm Monday to Friday** and **8 am to 1 pm Saturday**. We may need to access this compound outside of standard work hours and we will notify you before this occurs.

We will notify you separately if activities to support pipeline installation will be taking place outside the compound.

We will minimise impacts as much as possible by:

- scheduling deliveries during standard hours as much as possible, and notifying the community before deliveries occur outside standard hours that may generate noticeable noise

Sydney Water Corporation ABN 49 776 225 038

- maintaining good housekeeping and using shade cloth in some areas to reduce visual impact
- parking vehicles within the compound and not on surrounding streets
- ensuring driveway access is always maintained
- securing the site for the safety of the community and animals
- using water to minimise dust and mud tracking.

Tree removal

The pipeline will be installed along the side of Park Road between Wilmington Road and Driver Avenue. To make way for the pipeline, we will remove vegetation along the southern side of Park Road. Vegetation removal is expected to begin from **Monday 18 September 2023** and will take about four weeks to complete (weather and site conditions permitting). Once the tree removal is complete, pipeline installation along Park Road will begin. In locations where vegetation removal and pipeline installation is being undertaken, Park Road will be reduced to one lane and traffic control will be in place.

For further information, to provide feedback, or to make a complaint, please contact John Holland's Community Team on **1800 064 127** or uppersouthcreek@sydneywater.com.au. For more information about the Upper South Creek Advanced Water Recycling Centre project, visit sydneywatertalk.com.au/uppersouthcreek.

Thanks for your understanding during this essential work.

Yours sincerely

Darren Wharton
