Rouse Hill drinking water services

We’re building new drinking water trunk mains to support growth areas in Rouse Hill.

This includes the Cudgegong Road Station (Area 20) precinct defined by the Department of Planning and Environment.

The work includes:
- 2.3 kilometres of new drinking water trunk main along Rouse Road and Windsor Road, Rouse Hill.

Please see below the approximate location of this new trunk main.

Can I connect?

Customers cannot connect directly to drinking water trunk mains.

If you would like to find out whether Sydney Water can supply your property with drinking water, you’ll need to engage a Water Servicing Coordinator.

A Water Servicing Coordinator can lodge a Feasibility Application on your behalf to confirm whether Sydney Water’s network can supply your property with drinking water.
